HOW CAN WE SET YOU UP FOR SUCCESS?

CONSULTING

We measure our success by our Client's results.

- Develop and implement sustainable maintenance and reliability processes and procedures
- Experts with years of industrial experience
- Focus on operational improvements to increase operational efficiency
- Deliver solutions to decrease operational and maintenance risks and costs

Carver worked with Sasol Synfuels to implement a “**Machine Health Management**” program for a reciprocating compressor to maximize Availability and Reliability of the unit. The MHM concept is a proactive, integrated process that engages the entire life cycle of identified critical equipment and components.

The MHM program implementation reduced downtime losses by +95%, and extended the average Meantime Between Failure (MTBF) duration by 400%, while reducing the net Operations-Maintenance and materials budget within one year of initiation!
